Teen-Agers Automobile Ride Ends In Deaths For Two

WRECK LEAVES 5 INJURED, 3 OF THEM SERIOUSLY

An evening ride by a teenage group in a newly purchased automobile ended in death for two people and critical injury to three others at Pine Level, State Highway 141, eight miles from Elba, Saturday.

Three boys from the same neighborhood in Columbus, Ga., drove to Pine Level early Saturday evening where they were joined by two girls and were starting for a spin when tragedy struck.

Motor Transport Students Of Auburn Tour Dorsey's

Twelve students on motor transportation at Alabama Polytechnic Institute, Auburn, along with their instructor, were guests of Dorsey Trailers, Wednesday, July 31, for a tour of the manufacturing facilities.

Following the tour of the manufacturing plant, the students, faculty members and department heads of Dorsey Trailers were guests of the company at a luncheon at Lindsey's Grill.

The afternoon was devoted to a tour of company offices, including engineering, production, research and development, accounting, first aid, purchasing, training departments.

The students, led by their instructor, Harold A. Staine, touring the plant were W. L. Burnham, B. W. Burton, R. I. Carlisle, R. L. Cawthon, J. H. Crawford, G. C. Willis, B. W. Evans, H. B. Gurley, W. R. Humphrey, C. Pennewell, D. W. Smith and Lee Thomas.

The Zion Chapel Annual Sacred Harp Sing was held Sunday, July 21, with the house called to order by the chairman singing No. 34, 108, 101.

USE OF COTTON QUOTA CARDS IS DESCRIBED

Attention of cotton growers today was called to the proper use of cotton marketing cards and other authorized identifying documents in connection with the cotton marketing quota program.

Producers who have 1957 crop penalty-free cotton usually will identify it to the buyer by the use of a marketing certificate. Also under some special circumstances, 1957 crop cotton will be identified to buyers as penalty-free by the use of marketing certificates.

Complete information with respect to the use of marketing cards, marketing certificates, and loan documents may be obtained from the County ASC Office.

Mr. Gunter emphasized that misuse of marketing card, marketing certificate or loan document may subject the producer and buyer to court action for such acts.

Attention of cotton buyers today was called to their responsibilities in connection with the cotton marketing quota program. Lester Gunter, chairman of the Coffee County Agricultural Stabilization and Conservation Committee, explained that, under quotas, if cotton is not properly identified as penalty-free, the buyer is obligated to collect or deduct the penalty from the purchase price of such cotton when marketed.

ELBA C. OF C. ACTS TO KEEP IT'S WORK GOING

The Elba Chamber of Commerce Board of Directors discussed plans to forestall a threatened shut-down of its activities by the end of September when they met Tuesday at Paul's Cafe.

President Boyd Murphree said that the Chamber's present financial condition will force it to close its office and cease activities on Sept. 30.

The directors decided to hold a special meeting Aug. 16, at 7 p.m. at the Elba Exchange Bank to discuss ways and means to forestall the threatened shut-down.

Directing, present, in addition to President Murphree, were Mayor Herschel Taylor, H. H. Pick, O. D. Vaughan, Jr., M. J. Lee, Dr. J. M. Kimmer and Walter Smith.

Mayor Taylor described the work of the Pea River Development Association and the board voted the Chamber's cooperation.

COLLECTION OF GARBAGE FEE IS DISCUSSED

A new source of revenue to operate the city of Elba was discussed by City Council at its regular monthly meeting Monday night with Mayor Herschel Taylor presiding.

The members discussed at length the possibility of levying a fee for collection of garbage from residential users but postponed any action until a later meeting.

City Attorney C. L. Rowe was instructed, meanwhile, to draw an ordinance to provide for a fee of \$1.25 a month for garbage collection from residential users and to get information from other nearby towns and cities with regard to the cost associated with garbage collection.

FIRST BALE OF COTTON GINNED HERE THIS YEAR

The first bale of cotton ginned in Elba this season was put through the gin of Gold Kist Peanut Growers Association, formerly Morrow, Gin and Peanut Company, Tuesday.

It was grown by Ben Polmar, colored tenant on the farm of Mrs. D. B. Nelson, at Danley's Crossroads, last year. Polmar produced 40 bales of cotton from 30 acres at the same place.

Commercial meat production during the first half of this year was down four percent from the same period one year ago, according to the Livestock and Meat Situation Report. Pork output accounted for most of the change.

Why just dream about the home you want?

Here's How Payroll Savings Can Make That Dream Come True

If accumulating the down payment has been keeping you from building the house of your dreams, chances are you've never tried the Payroll Savings Plan. Because this is the easy, automatic way to meet any down payment—for a house or any large purchase.

All you do is sign a Payroll Savings application at your pay office, naming a certain sum to be set aside for you each week—a few dollars or as much as you want. After that, your saving is done for you—automatically.

And every time there's enough in your account, a U. S. Series B Savings Bond is purchased in your name and given to you. Soon the few dollars saved from your pay each week add up to a generous amount.

So don't get in the dumps about down payments. Meet the cash needs for your dream home the way millions of other Americans are meeting theirs—join the Payroll Savings Plan today. Or, if you're self-employed, invest in Bonds regularly where you ban!

Where Is George Washington Morris?

Various persons who have recently been trying to contact George Washington Morris have been having difficulty in locating him at his accustomed haunt in front of the Morris-McCullough store on the bench where enough community gossip gurgles back and forth to fill up several columns such as mine.

An inquirer last Friday was told by Luther Morris that George Washington was acting strangely lately, he only showed up in his place on the bench less than half time each day.

No bid shall be withdrawn for a period of thirty (30) days subsequent to the opening of bids without the consent of the Housing Authority of the City of Elba.

Each bidder must furnish evidence that he is authorized to do general contracting under Alabama law by inserting his license number on his bid and on his bid envelope.

HATCHES QUAIL IN 18 DAYS ON FARM IN COFFEE

Maxwell English, son of Mr. and Mrs. Harold English, recently set a large number of Coturnix quail eggs at their

home in Coffee County. The plan was to complete and sent them to study for changes before the planting date.

Anyone desiring help along these lines, contact Max at Enterprise Courthouse.

Mr. English said last Friday little quail were popping out of the shells in lively manner.

He said this new kind of quail hatches in 18 days, whereas the regular quail eggs require 21 days to hatch. Buddy also has a large number of little Bob Whites in his hatchery.

It is said that the Coturnix quail, although smaller than the Bob White, have the advantage of laying eggs and hatching at a much younger age, multiplying much more prolifically.

An inquirer last Friday was told by Luther Morris that George Washington was acting strangely lately, he only showed up in his place on the bench less than half time each day.

SHOP IN ELBA AND SAVE

It is announced that the finishing touches will be put on the Elba-Opp and Elba-Troy paving projects in the near future. They received their first coats of asphalt and slag over

project on the Elba-Troy highway, extending beyond Big Creek, is ready and will be treated with applications of oil and slag as soon as the materials arrive. It is reported that additional contracts will be let for the Elba-Troy highway, on the Coffee County and Pike County ends in the near future.

Work is expected to be resumed this (Thursday) morning. The Morris Construction Co. steam shovel will be used instead of the dragline. Clay will be dug from the Brunson hill, east of Pea River bridge, and hauled in dump trucks to complete the stretch of level from Beaver Dam Creek to a point near the county jail.

If J. Batchelor, who lives on South Avenue, brought a large flock of chickens to the Elba office Monday. It also had a double beak. It appeared to be

strong and healthy.

It is reported that additional contracts will be let for the Elba-Troy highway, on the Coffee County and Pike County ends in the near future.

Work is expected to be resumed this (Thursday) morning. The Morris Construction Co. steam shovel will be used instead of the dragline. Clay will be dug from the Brunson hill, east of Pea River bridge, and hauled in dump trucks to complete the stretch of level from Beaver Dam Creek to a point near the county jail.

REQUESTS FOR FALL COTTON ARE OPEN NOW

The cotton county seed commission will take request for cost shares in connection with fall practices under the 1957 ACP program through August 23, according to Lester Gunter, chairman in a statement released today.

Mr. Gunter pointed out that cost-shares for many practices are available to use in the fall of 1957. Some of the more used practices according to Mr. Gunter, are: Planting permanent vegetation cover, constructing terraces, building permanent levees, constructing farm ponds and seeding winter legumes.

Mr. Gunter pointed out that this was only a partial list of practices available. Producers who need other practices should contact the County ASC Office in New Brockton, Ala., for complete information on other practices.

Specifications will be furnished for each practice approved, so the farmer may carry out the practice to give the most conservation.

Mr. Gunter concluded by saying that any cost shares requested after August 23, would be considered on a first-come first-served basis depending on funds available. Should the sign-up result in a request for cost-share in excess of funds available to the County Commission, it will be necessary to reduce the requests of producers within the funds allocated to Coffee County.

Chinch Bugs Killed By Toxaphene Dust
By Max B. Mathews, Home Demonstration Agent.

While I was in Auburn last week, I had an occasion to talk to Mr. W. A. Ruffin, Extension Entomologist about the Chinch Bug problem.

It is definite that 20 per cent Toxaphene, applied as a dust at the rate of 1 pound per 100 square feet, watered in lightly enough to get it to the roots of the grass will destroy the pest.

Farm News and Reports

CROPS ARE NOW FERTILIZED BY BETTER FOODS

AUBURN—Alabama farmers are turning to fertilizer grades containing a high percentage of plant food to help them in an effort to increase per-acre yields and obtain better crop stands.

API Extension Agronomist J. C. Lowery said last week that fertilizer grades containing a higher percent of potash are

rapidly becoming more popular. He also remarked that the increase on the use of nitrogen fertilizer has been greater than any other year.

Lowery pointed to reports of fertilizer sales of last May in comparison to those of May, 1956 to show the trend toward fertilizers with more plant food.

Total sales of 4-12-12 were over 10,000 tons greater this May and sales of 4-10-7 dropped about 4,500 tons. This May the amount of 6-8-8 and 8-8-8 sold

was about double the sales of May 1956. And last May the tonnage of 0-14-14 sold was little more than half that of May 1956.

Lowery said that total fertilizer sales for last May ran almost 7,000 tons greater than for May 1956, this in spite of the fact that the total tonnage of fertilizer sold in Alabama from Oct. 1, 1956 through May 31 was 74,210.19 tons less than the to-

tal amount sold from Oct. 1, 1955 through May 31, 1956.

The current Farm Labor Report shows that farm wage rates have continued to increase and on July 1, stood at an all-time high for that date.

SOIL CONSERVATION NEWS

The Soil Conservation Service assisted Joseph Baler write a conservation farm plan on his place last week. Baler just purchased 120 acres of land East of the Victoria community and plans to develop a forestry program on this land. He plans to plant 60 acres of row crop land to ash pines in January of 1958. Baler is cooperating with the Wiregrass Soil Conservation District.

Doyle Wilkerson of the Victoria Community became a cooperator of the Wiregrass Soil Conservation District last week. He has made plans to construct a farm pond on his farm this summer. The Soil Conservation Service assisted Wilkerson check the soil and run a profile for the proposed pond.

Edd Cooper of Elba became a cooperator of the Wiregrass Soil Conservation District this week. The Soil Conservation Service assisted Cooper write a conservation farm plan on his farm south of Basin. Cooper plans to do some gully control work on his farm this summer.

OUT ON A LIMB

By Summy McCulloch

During a tense moment in a murder picture at our local theater, Ol' Zeke was groping for something on the floor.

"What have you lost?" demanded the lady in the next seat.

"A caramel," Zeke said.

"Then you're going to all that bother for a measly caramel?"

"Yes," Zeke said. "My teeth are in it!"

Did you know our country now consumes paper at the rate of 400 pounds per person per year? For any tree farmer who raises trees for the pulp market, this is a mighty significant statement.

Pulp mills accept smaller logs than lumber mills do. You know—and that means you can easily find a market for your whole crop of trees! You won't lose much wood when you cut defects out of your logs, either, because pulp mills generally use the outer layers of lumber mills usually use the

"Course, no single pulp mill will use every kind of wood—it's best to check your local mills for their requirements. As a matter of fact, I like to make arrangements for selling my trees before I cut them. It's best to have a written agreement with the mill."

Safety rules are mighty important in the woods. Before you cut, always figure out a way of escape. Then cut diagonally, not straight across, so you can get out of the way if the log rolls or anyone else is in the area, give plenty of warning before you cut. Get tree! Hand saw! says the best rule for cutting trees is this one: Use common sense. I think he's right.

The gal looked demurely at the fellow and declared, "The fellow's really got an outstanding personality. He's musical, well read, a good dancer, and a good cook. I'll tell him so."

Young Ezra reached for his hat. "I'm going home," he said. "I don't want a husband—you want a television set!"

So long! See you soon!

INCOME FROM STRAWBERRIES TO RISE IN '58

AUBURN—Alabama strawberry growers are being urged to "stay in there and keep picking" instead of plowing under their patches. All signs are pointing toward a more profitable season next year.

In fact, API Extension Horticulturist John Bagby declared this week that if growers do a good job with their berries next season, they should be able to realize a good income from them.

Bad strawberry weather and low market prices this summer dealt a discouraging blow to Alabama growers. A few plowing up their patches, and others are considering doing the same. But Bagby believes that prices will be more favorable next year. Then, too, strawberry profits per acre generally run higher than the per-acre profits of some row crops.

This year's low market price resulted from the large storage holdings of frozen strawberries. But from all present indications this supply will dwindle by the time next year's berries hit the market. Thus Bagby foresees an increase in berry demand for frozen berries continuing its growth.

Big Will Waller House Uses Radiant Heaters

In a city of fine ante-bellum homes, the W. M. Wallers of Greenville own one of the oldest, most beautiful, and best preserved. Their columned home on East Commerce St. was built by slave labor nearly 100 years ago.

"It's a big house, and an old house," says Mrs. Waller. "But we heat it just beautifully with natural gas. We cook and heat water with natural gas too, and we're well satisfied."

"We have a small house in the back that we rent, and it's completely equipped with natural gas, too. You can certainly say that Mr. Waller and I are completely satisfied Gas District customers."

BY MRS. ROBERT CANNON

JUST LIKE OLD TIMES were

we leaving when we arrived and I thought Lola Ann looked especially pretty in the fitted sheath dress she was wearing.

Marie McAuley was there and Becky and Wiley Stanford came by later. The telephone kept ringing for Mary and the young boys formed an almost

unbroken line in their faces to see Perino, who, however, had gone on to Florida on a deep sea fishing jaunt.

It was grand to see Mary and Perino again and to know that they are happily settled in their "hilltop home."

CERTAINLY REGRETTED the fact that Erlene and Charles McNeill moved away from Elba.

In our last chat with Erlene, she said that they were moving to a very nice little town where Charles would resume his football coaching, the job he held prior to his coming to Elba where he was in the insurance business. We shall certainly miss our pleasant times spent with the McNeills and their two adorable little girls, Sandy and Gret.

SEEMED that Wednesday was the day we spent congratulating new fathers. It was our first chance to see the Reverend Hendricks, who was all smiles over the fine new baby boy the stork had left at his house. He told us that Betty had returned home from Opp and that her mother was here from Florida to spend a few days with them.

Later we had the opportunity to see Kimmey Dorsey and to inquire of his new son. He always thought Betty's children had exceptionally pretty names and was eager to learn what this little newscaster would be called. And he has a proud name all his own, George Franklin Dorsey.

RECENTLY RETURNED from a visit to Rome, Ga., is Gayle Stephens who took the children for a short visit to her parents.

Mr. and Mrs. Louie Dimukes and Louie Gwyn and Judith were called to Atlanta, Ga., July 18, on a special occasion.

The event being the birth of Brenda Kay Brantley, daughter of Mr. and Mrs. Don Brantley.

USE THIS OIL TO STRETCH GASOLINE MILEAGE

By minimizing friction and carbon deposits inside your engine, Cities Service 5-D Koolmotor Oil actually stretches gasoline mileage as much as 10%!

And, meanwhile, it provides the greatest protection against engine wear... for this one motor oil does the work of several ordinary oils. For quick cold-engine starting, it provides light 10W oil performance.

For warm-up, medium 20 oil performance... And for warm-engine cruising, the heavy 30 oil performance you need to prevent excessive friction.

TALK ABOUT ECONOMY... FORD'S COST LESS PER MILE!

Fords cost less to buy!

No doubt about it! Model for model, Ford cars are the lowest priced of the low-price three. And don't be fooled by those "low prices" now being quoted for some "stripped down" models in the medium-price field. Remember, a '57 Ford equipped with the way most people want a car today—with automatic transmission, heater and radio—costs hundreds of dollars less than these medium-priced cars, similarly equipped.

*Based on comparison of manufacturers' suggested retail delivered prices.

Fords cost less to trade!

Latest official auction sale figures on used cars show clearly that the new kind of Ford commands a higher price than either of its two low-price competitors. The men who bid at these auctions are professional buyers—men whose very livelihood depends upon their expert knowledge of cars. They pay more for used Fords because they know that Fords hold up in value. Like thousands of Ford owners from coast to coast, they have discovered that Ford is worth more when you buy it... worth more when you sell it, too!

Fords cost less to run!

In the only nationally recognized test of gasoline economy, the 1957 Mobilgas Economy Run, a Ford six delivered more miles per gallon than any other car entered! This remember, was no "private test" conducted for the benefit of a single manufacturer. This was grueling competition between 12 different makes of cars... supervised by the United States Auto Club. And when the test was over, Ford led all other cars in the thing you want most—actual miles per gallon!

Clothing Studies Are Held by Clubs

The study in the 32 home demonstration clubs in Coffee County for May, June and July has been an excellent one.

Short cuts have been stressed in every way possible, because in this machine age, hand basting, and sewing should be held to the minimum. Some of these short cuts have adopted from the dress-making industry.

One of these is knotting the ends of thread right on the sewing machine, instead of tacking or tying by hand. The machine made knot is accomplished by crisscrossing the foot just enough so that the

feeding doesn't work, and allowing the machine to stitch several times in one spot. Stay stitching was stressed as another machine process that cuts out hand work. Stay stitching is a type of regular machine stitching a little less than seam-width from the edge of pieces that are cut across the grain, sleeve and neckline and will hold the grain threads in position, preventing stretching so that seams need no basting.

Under stitching for the facing, putting in zippers along with putting the band on the skirt have been demonstrated. One of the most helpful hints and short cuts has been that of

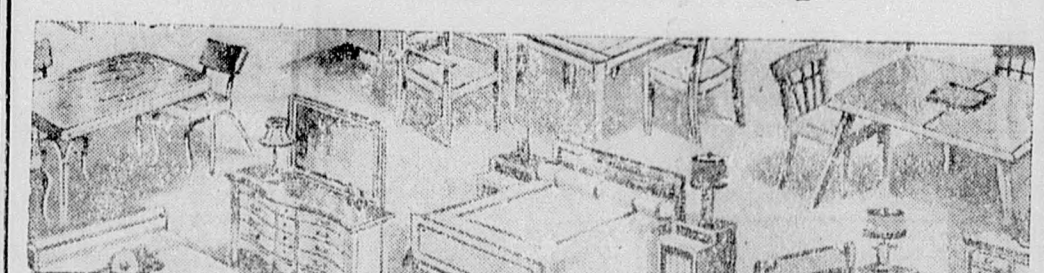

machine stitching the hem in dresses.
